## HAWAII WOMEN ASK VOTE

### THELMA PARKER GETS ESTATE | MAJ. BUTT'S BODY FOUND

#### HOME FOR WORKERS SURE

Within a few hours yesterday afternoon more than half of a \$30,000 fund for the establishment of a working girls' lodging-house was raised by a public-spirited and effective committee of Honolulu women.

Mrs. J. R. Galt, Mrs. George R. Carter, Mrs. Fred Macfarlane and Mrs. Henry Waterhouse constituted the leaders in the fund-raising, which was one of the best-organized and most successful of its kind ever held here. As a result, Mrs. Galt said today that the success of the fund is assured, and that the home is certain to be built.

The lodging-house is to be erected in the Palama district, at the end of Robello lane, and although built by the funds now being raised, is to be maintained by the directors of Palama Settlement. However, it will be entirely separate from the settlement. Its object is to provide a home for working girls and women at a reasonable rate and its stimulus is the condition that juvenile Judge Whitney has pointed out from time to time.

Mrs. Galt said today that the people of Honolulu are responding in an enthusiastic and sympathetic way that is appreciated by everyone interested in the success of the movement. The committee yesterday found the businessmen very generous, and that within a short time the remainder of the fund will be raised.

Just how much has been raised will not be known until all the members of the committee compare notes, but it is well over \$15,000.

Percy Hunter, who arrived from Australia, states that he has never heard of Fitzmaurice, the supposed special correspondent of the London Times who was recently the subject of much discussion in Honolulu. Hunter comes in touch with all the distinguished people coming to Australia and should have met Fitzmaurice if he was what he alleged.

News received from Vancouver tells of the sudden death of Arthur M. Burns, a newspaperman well known in Honolulu and Hilo and who up to the time of his death was working on the Vancouver Sun. He died very suddenly of pneumonia, passing away a few minutes after his brother had left him thinking that there was no danger.

#### POLITICS IS GIVEN NEW FACTOR BY THE WOMEN

"Votes for Women" is the slogan of the Hawaiian Women's Political Organization, which is holding a meeting this afternoon at the Hiram Hotel, on Nuuanu street, and which is suddenly organizing the women of Honolulu into a live political society.

With Mrs. Jack Kalakala as president, Mrs. Kane as secretary, with Mayor Fern, J. M. Peopoe and other prominent Hawaiians present, the meeting today is of much significance.

It was reported this morning that the women, in addition to the matter of getting the ballot in Hawaii, will take up more domestic questions, and that one of them will deal with the Board of Health.

One of the principal matters to be discussed is in reference to the shutting down of the pool shops some time ago by the health authorities. The Hawaiian women claim, said one of their leaders this morning, that the health authorities had no business to do as they did, and in order to prevent further trouble in the pool business, they will, it is said, ask their husbands, who are either directly or indirectly interested in local politics, to pledge themselves to oppose the territorial administration which caused such uneasiness and uproar among the native Hawaiians when their status was changed.

#### HEIRESS GIVEN LOVE AND WEALTH

After having been under a guardian's control since October, 1894, Annie Thelma Kahluomakapili Parker, the Hawaii heiress, was this morning released by Judge Whitney in the Circuit Court and the guardianship terminated for good. Three guardians have had control of the enormous estate during the time it has been in vogue, the first being James I. Dowsett, who was followed by Elizabeth J. Parker, and lastly by Alfred W. Carter, who took over the estate in September, 1899. The net profit of the estate which was turned over to Miss Parker this morning is \$223,967.63, which represents the earnings of the last fourteen and a half months. It was reported this morning that a trust will be organized to handle the estate, with Alfred W. Carter as the head of it.

The legal proceedings follow closely the consummation of a romance which has been known for some weeks and has been of much interest to Miss Parker's friends. She is to be wedded in July, it is stated, to Henry Gallard Smart, of Virginia, who has been with the Trent Trust Company. Mr. Smart met Miss Parker while coming from San Francisco on the Korea last December and the acquaintance soon ripened into love.

Judge Whitney this morning complimented Carter on the way in which he had carried out his duties as guardian.

#### WILL TAKE UP BELT ROAD MATTER

Following the decision handed down by the Supreme Court in connection with the letting of the contract for the first section of the belt road there

is to be a meeting of the Loan Fund Commission tomorrow morning at 11 o'clock. The meeting is to be held in room 61 at the Young Hotel.

The matter of the court's decision and the effect it will have on the future policy of the Commission will be thoroughly gone into. Specifications are also to be drawn up preparatory to calling new tenders for the construction of the first section of the road, as the court's decision throws out all the bids and clears the slate for a new deal.

#### TAFT ATTACKS THE COLONEL

SPRINGFIELD, Mass., Apr. 25.—In a speech received as a sensation here today, President Taft attacked Colonel Roosevelt, charging him with insincerity and declaring that he misstated and distorted facts.

#### H. P. WOOD HUNTS SITE

(Associated Press Cable.)  
SAN FRANCISCO, Cal., Apr. 25.—Chairman H. P. Wood of the Hawaii commission to the San Francisco exposition is here arranging for the site for the Hawaiian building.

The Romadka Brothers Company, a trunk manufacturing concern, has been thrown into involuntary bankruptcy in Milwaukee on the claims of New York creditors. Back of the financial trouble is the scandal several years ago, when Evelyn, then wife of C. J. Romadka, one of the brothers, was arrested in Chicago as an accomplice in crime of a negro.

Abdul Baha Abbas, leader of the Baha movement for worldwide religious unity, arrived at New York recently on the steamer Cedric from the Mediterranean.

#### DR. WHITE ASKED HERE BY COLLEGE OF HAWAII

Andrew D. White, famous diplomat, college president and author, may come to Hawaii in June to be a speaker at a special series of exercises with which the College of Hawaii is planning to commemorate important anniversaries.

President Gilmore of the college is now in correspondence with the United States Ambassador to Germany, who was also the first president of Cornell, and with whom, as a Cornell man, President Gilmore is personally acquainted. To date, President Gilmore is somewhat disappointed in the reply to his request, as Dr. White is rather averse to railroad travel and his summer is already well-filled with dates.

However, President Gilmore said this morning that the matter is still on and he will try to persuade Dr. White to change his mind.

In June the College of Hawaii plans a great commemorative program. The annual commencement exercises of the college, the celebration of the completion of its fine new building, and the fiftieth anniversary of the establishment of the "land grant" colleges in the United States, makes a triple anniversary of unusual importance. As the first president of Cornell, Dr. White's career as a distinguished educationalist is closely allied with the development of the land-grant college development and he has always maintained a hearty interest in education in general and this system in particular.

Dr. White's visit here would be a fine thing for Hawaii and an education stimulus of much force. He is one of America's foremost men, "Ambassador to Germany," peace commissioner at The Hague, honorary commissioner from the United States abroad on many occasions, he has led a career of marked distinction.

#### GUARDSMEN TO SHOW RIFLE SKILL

The citizen soldiers of Hawaii will be given a chance to show their skill with the rifle next week, when the six companies of the First Infantry will shoot the regular army course, both in the gallery and on the range. Owing to the fact that the men can only get off in the late afternoon and Sunday, it will take several months to complete the entire outdoor work, but as it is possible to shoot at night in the gallery, the preliminary indoor work should be finished in a couple of weeks.

The National Guard of Hawaii has some crack shots in its organization. There are a score or more of officers and men who have gone through the

#### MRS. WILBUR'S DOG NOT AT LARGE

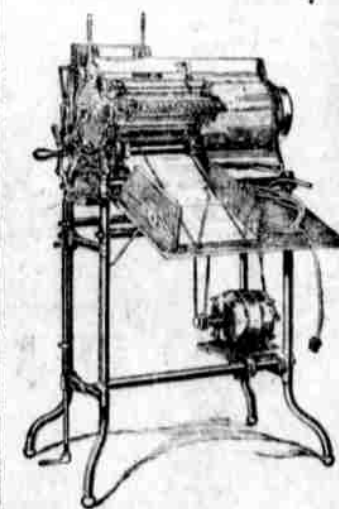

That Famous Canine Locked In Kennel at Quarantine Station.

"Beauty," the blue-blooded toy spaniel owned by Mrs. Frank Wilbur, of Boston and which has become almost a public issue since its arrival here a few days ago, is out at the animal quarantine station, reports to the contrary notwithstanding.

Albert Davenport, keeper of the station, this morning branded as absolutely false a story appearing in an afternoon paper yesterday to the effect that the spaniel had not been in the quarantine station since the first two or three days since it arrived, and declared absolutely false the further published statement that the dog was on Fort street yesterday afternoon as a member of Mrs. George M. Pullman's party. Mrs. Wilbur is Mrs. Pullman's sister.

The dainty little Japanese toy spaniel, whose coming made trouble for steamship and territorial quarantine officials alike, was at the quarantine station this morning, very much at home.
